

OGUN DIGICLASS

CLASS: PRIMARY SCHOOL

SUBJECT: MATHEMATICS

TOPIC: ANGLES

SUB-TOPIC: Types of Angles

www.ogundigiclass.ng

Learning Objectives

Identify types
of angles

Solve
problems on
angles

The **Angles**

**Come and meet
the Angle family...**

Zero Angle

Acute Angle

Obtuse Angle

Right Angle

Straight Line Angle

Reflex Angle

Complete Angle

“Hi! We’re the Angles, we’re one family, but all very different, so let us tell you a bit about ourselves!”

This is Obtuse.
He's the husband
and the head of
the family. He's
*bigger than Right
and Acute*. He's
always inside, and
he always
measures between
 90° and 180°
(depending on
how much dinner
he's eaten!)

Mr. Obtuse Angle

Mrs. **Right** Angle

This is me. I'm Mrs. Right Angle. I *always* measure 90° , my favourite shape is a square, and whatsmore, no matter what my husband tells you, I'm *always right*!

Baby **Acute** Angle

This is baby Acute angle. Isn't he cute?! He loves a hug, and always has his arms out for cuddles! He's the smallest of the family, measuring less than 90° .

Reflex Angle

This is our pet dog, Reflex. He's always outside. He's only a pup at the moment so he measures 180° , but he can grow up to 360° ! So he's definitely the biggest angle. You'll never see him without that ball in his mouth either, horrid thing!

So, now you've met us, let's see how well you know us...

Who am I?

I always measure less than 90°

I'm the smallest angle

I'm very **cute!**

I'm....

Who am I?

I'm always outside

I'm the biggest angle

I can measure
between 180° and
 360°

I'm...

Reflex Angle

Who am I?

I always measure
between 90° and 180°

I'm always inside

I'm bigger than
Right and Acute

I'm...

MR. Obtuse. Angle

Who's left?

Solving Problems on Angles

Find the value of a

Find the value of x

What is the value of q

Assignment

Name the following angles

What is the sum of the angles below?
